SKILL SUBJECTS FOR GRADE 6 , 7 and 8

We are delighted to inform you that as part of our continuous efforts to provide holistic education and prepare students for a skill-oriented future, we have introduced Skill Modules for Grades 7 and 8 as per the CBSE guidelines.

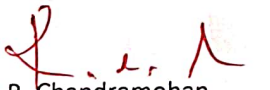

Grade 6 : Students are currently engaged in the **Handicrafts Skill Module (Code: 905)**. This module fosters creativity and practical craftsmanship, encouraging students to explore traditional and modern techniques in creating handmade items.

Grade 7 & 8 : Students are exploring the futuristic domain of **Artificial Intelligence (AI) Skill Module (Code: 901)**. This module introduces the foundational concepts of AI, enabling students to develop analytical thinking and problem-solving skills through hands-on activities.

These modules are designed to enhance the skill sets of our students, preparing them for real-world challenges and opportunities. We are confident that these initiatives will enrich their learning experiences and ignite a passion for lifelong learning.

Thank you for your continued support and cooperation in nurturing the holistic development of our students.

Warm regards,

R. Chandramohan
Principal
Greenwood High School
Mancherial.
